

## Poor get sick to get state grants

*POOR people may be trying to become HIV-positive or are not taking their medication so that they can get disability grants. This is one of the disturbing reports explored in the State of the Nation 2007 Report launched in Sandton on Monday. Published by the Human Sciences Research Council, the report gives insight into different subjects. Contributing authors also gave a detailed picture of the areas in which government has excelled and those where it has not done so well. - SABCNEWS.COM*
